

Connecting Generations Program

Introducing the Connecting Generations Program, a **Families First Community Grant** created as an additional method to invest Temporary Assistance for Needy Families (TANF) funds in ways to provide long-term benefits to caregiver families of minor children. Our mission is to empower caregivers and strengthen families. We are excited to provide care through support groups, home visits, and practical assistance.

We understand the importance of strong familial bonds and sense of community and that is why we are committed to creating a supportive society that understands and values the role of caregivers.

Thank you to all of our families that have allowed us into your lives, you are important to us and we are excited and look forward to what the future brings.
